Check the devices have enrolled

- Open Knox Asset Intelligence
- Select the Devices tab
- Check the Status of the devices are now marked as Enrolled

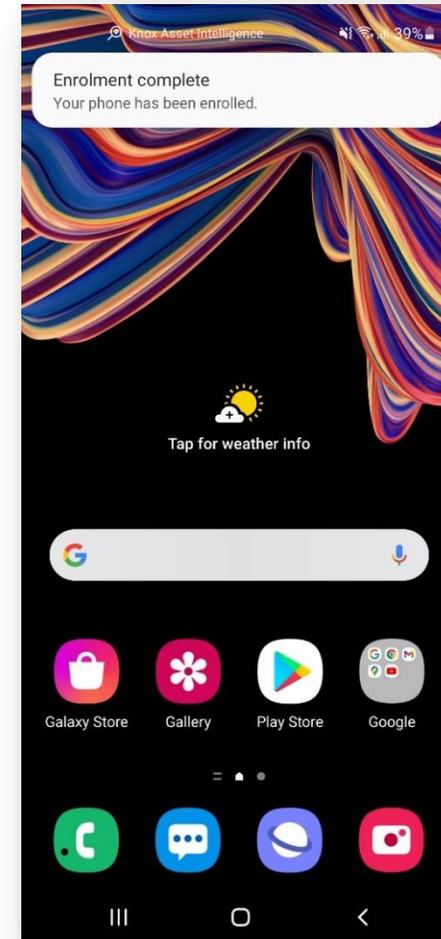

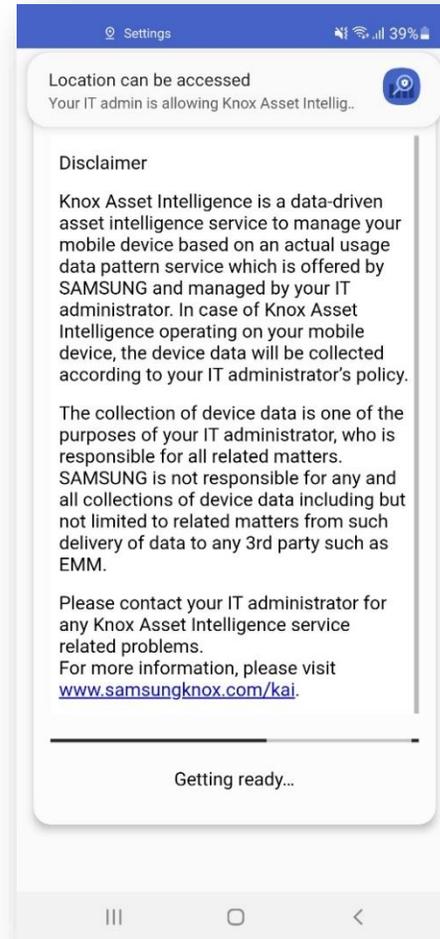

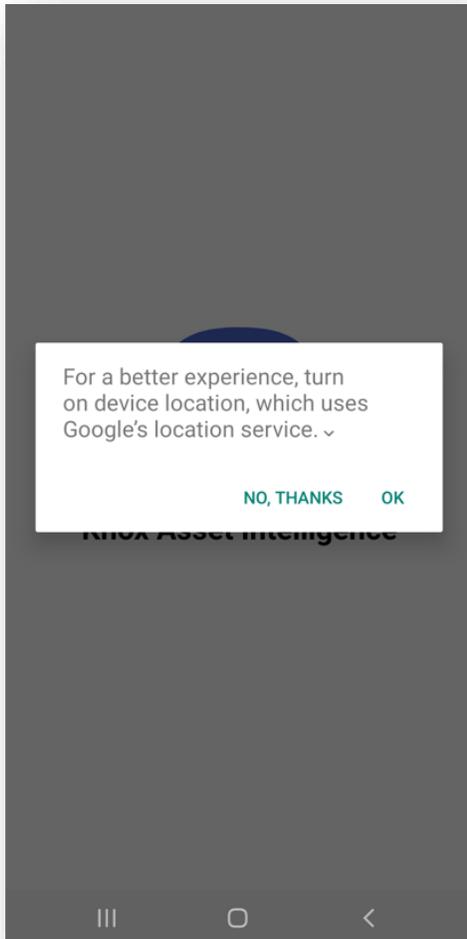

The screenshot shows the Samsung Knox Admin Portal interface. On the left is a dark sidebar with navigation options: Dashboard, Network, Apps, Battery, Devices, Licenses, Resellers, Administrators & Roles, Activity log, Device debug log, Knox Mobile Enrollment, Knox E-FOTA, Knox Configure, and Knox Manage. The main content area is titled 'Devices' and includes a search bar and a status filter set to 'Active, Inactive'. Below this is a table with columns: DEVICE ID, DEVICE GROUP, MODEL, STATUS, PERMISSIONS, and BATTERY STATUS. One device is listed with ID 356789100585676, status 'Enrolled' (highlighted with a red box), and battery status 'Consuming (60%)'.

DEVICE ID	DEVICE GROUP	MODEL	STATUS	PERMISSIONS	BATTERY STATUS
<input type="checkbox"/> 356789100585676	Ungrouped	SM-G398FN/DS	● Enrolled	Location	Consuming (60%)

KAI enrollment

- Once the Knox Asset Intelligence app has been deployed with the Knox Service Plugin app configuration, no action is needed in order to enroll into Knox Asset Intelligence. If an end user opens the Knox Asset Intelligence app they will see the below.
